Why use Kersten Linkages and power systems?

Kersten Linkages allow you to greatly expand your tractors working capabilities.

Not only does it open up the possibilities of front mounted attachments, which are far better suited to many tasks such as snow clearance, it does so in a way that is elegant and compact. Having a front Linkage also opens up the rear of the tractor for another attachment, so you can get two operations done in the same driving time!

For example, snow ploughing with the front and gritting with the rear in one operation.

Kersten manufacture some of the best attachments on the market for grounds maintenance operations such as Chemical free weed control, Snow and ice management and artificial surface maintenance.

A Kersten front linkage and power system allows you to use many of our attachments (as well as others) on your tractor, making it an extremely effective and flexible machine for year round site maintenance tasks!

Happy Browsing!

Front Linkages & Power Systems overview

FRONT LINKAGE - Our Front linkage Kits come in several different sizes to suit popular makes of tractor, from small ride-on lawn mowers, to 60HP Tractors.

All of our linkages use the principle of a linkage triangle to safely connect an implement to the tractor.

The Linkages will often have a Hydraulic lift function

This allows you to lift the implement up in the air, out of its working position for transport. **It is usually necessary to have hydraulics available on the tractor in order to operate this**, but on some models of tractor we can provide hydraulics as well.

FRONT POWER SYSTEMS - Our front Power Systems are available to suit a wide range of tractor models from 20HP-60HP. This system comes in a few types, depending on the existing capabilities of the tractor and the requirements of attachments. In some cases we can use the engine to provide power for either a hydraulic system or a front PTO. In other cases a front PTO or Hydraulic system will be run from another PTO in the middle or rear of the tractor.

We understand that each tractor is different and requires its own solution to get the best performance and reliability.

That's why we have put together this comprehensive catalogue of solutions, to guide you in finding the right linkage and front power system for your tractor!

The Kubota GR-Series and small G-Series Ride on Lawnmowers can be fitted with our own “FKDR” Linkage.

The FKDR Linkage comes in two variations for these models;

*Specify model of Mower when ordering

MODEL	PART NUMBER	PRICE
<p>FKDR Mechanical A small front linkage triangle, suitable for attaching the Kersten 1m range of NON-POWERED implements, such as Snow Plough and Wide-brush for artificial surfaces. Implements will be lifted/ lowered and angled Manually.</p>	FKDR MECH	495.00
<p>FKDR Hydraulic A small front linkage triangle, suitable for attaching the Kersten 1m range of POWERED implements, such as Sweeper, Weed-brush and Spreader. The Linkage provides Hydraulic lift/lower, hydraulic angling and hydraulic power to the implement. An auxiliary hydraulic pump and auxiliary hydraulic tank are included in this kit; so no additional hydraulic kits are required from the tractor manufacturer.</p>	FKDR HYDR	1850.00

The Kubota G-Series Ride on Lawnmowers can be fitted with our own “FK” Linkage. Either with or without hydraulics.

The FK Linkage comes in two variations for these models;

*Specify model of Mower when ordering

MODEL	PART NUMBER	PRICE
<p><i>FKHB Mechanical</i> A Mid-size front linkage triangle, suitable for attaching the Kersten 1.3m range of <i>NON-POWERED</i> implements, such as Snow Plough and Wide-brush for artificial surfaces. <i>Implements will be lifted/ lowered and angled Manually.</i></p>	<i>FKHB-KUB</i>	1350.00
<p><i>FKHB Hydraulic</i> A Mid-size front linkage triangle, suitable for attaching the Kersten 1.3m range of <i>POWERED</i> implements, such as Sweeper, Weed-brush and Spreader. The Linkage provides Hydraulic lift/lower, hydraulic angling and hydraulic power to the implement. <i>An auxiliary hydraulic pump and auxiliary hydraulic tank are included in this kit; so no additional hydraulic kits are required from the tractor manufacturer.</i></p>	<i>FKHB-H-KUB</i>	2100.00

The Kubota B1210 and BX Sub-compact tractors can be fitted with our own “FKHB” linkage and “FKPP” Hydraulic Power System.

The FK Linkage comes in two variations for these models;

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>FKHB Mechanical Linkage A Mid-size front linkage triangle, suitable for attaching the Kersten 1.3m range of implements, such as Snow Plough and Wide-brush for artificial surfaces. <i>Implements will be lifted/ lowered and angled Manually.</i></p>	FKHB-KUB	1350.00
<p>FKPP Hydraulic Power Pack An auxiliary hydraulic pump and auxiliary hydraulic reservoir tank are included in this kit, which is powered off the rear PTO of the Tractor. So no additional hydraulic kits are required from the tractor manufacturer. * To be used in conjunction with FKHB-KUB Linkage to allow fitment of powered implements such as the 1.3m sweeper or the Weedbrush.</p>	FKPP-KUB	850.00

The Kubota B30 Series Tractor can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>B30 “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air. <i>*Requires Hydraulic services to operate.</i></p>	MT131 7351	1795.00
<p>B30 Front PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with B30 “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.3m sweeper or the Weedbrush.</i></p>	FKDR HYDRO	1850.00

The Smaller Kubota B50 Series Tractors can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>B50 “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air. <i>*Requires Hydraulic services to operate.</i></p>	<p>FRHY B2326 (CAT 0)</p>	<p>1895.00</p>
<p>B50 “CAT 1” A-Frame Also available with standard CAT 1 front linkage triangle</p>	<p>FRHY B2326 (CAT 1)</p>	<p>1995.00</p>
<p>B50 Front PTO Kit An auxiliary front PTO kit, which is powered from the Engine of the Tractor. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with B50 “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.5m sweeper.</i></p>	<p>FRZWR B2326</p>	<p>2500.00</p>

The Larger Kubota B50 Series Tractor can be fitted with a “CAT 1” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>B50 “CAT 1” A-Frame A standard “CAT 1” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air. <i>*Requires Hydraulic services to operate.</i></p>	<p>FKHY B31 (CAT 1)</p>	<p>1995.00</p>
<p>B50 Front PTO Kit An auxiliary front PTO kit, which is powered from the Engine of the Tractor. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with B50 “CAT 1” A-Frame Linkage to allow fitment of powered implements such as the 1.5m sweeper or the Weedbrush.</i></p>	<p>FRZWR B31</p>	<p>2500.00</p>

The Kubota X-Series Utility vehicles can be fitted with a “CAT 0” Linkage. Attachments can be powered using a Hydraulic Kit from Kubota UK

*Specify model of Utility Vehicle when ordering

MODEL	PART NUMBER	PRICE
<p>RTV-X “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air. *For the use of front linkage and hydraulic extension kit the Kubota RTV X900 must be equipped with the following accessories from Kubota;</p> <ul style="list-style-type: none"> • Hydraulic pump for additional hydraulics (K759199340) • Hydraulic valve double acting / double acting with Floating position (K759199360) 	<p>MT131 7931</p>	<p>1495.00</p>

The Kubota STW Series Tractors can be fitted with a “CAT 1” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>STW “CAT 1” A-Frame A standard “CAT 1” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air. *Requires Hydraulic services to operate.</p>	<p>FRHY STW (CAT 1)</p>	<p>2150.00</p>
<p>STW Front PTO Kit An auxiliary front PTO kit, which is powered from the Engine of the Tractor. So no additional hydraulic kits are required from the tractor manufacturer. * To be used in conjunction with STW “CAT 1” A-Frame Linkage to allow fitment of powered implements such as the 1.5m sweeper or the Weedbrush.</p>	<p>FRZWR STW</p>	<p>2500.00</p>

The Kubota L40 Series Tractors can be fitted with a “CAT 1” or “CAT 2” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>L40 “CAT 1” A-Frame AA standard “CAT 1” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air. <i>*Requires Hydraulic services to operate.</i></p>	FRHY L CAT 1	2595.00
<p>L40 “CAT 2” A-Frame Also available with standard CAT 2 front linkage triangle</p>	FRHY L CAT 2	2695.00
<p>L40 Front PTO Kit An auxiliary front PTO kit, which is powered from the Engine of the Tractor. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with L40 “CAT 1” A-Frame Linkage to allow fitment of powered implements.</i></p>	FRZWR L	2500.00

The John Deere X300 -500 Series Ride on Lawnmowers can be fitted with our own “FKDR” Linkage. Either with or without hydraulics.

The FKDR Linkage comes in two variations for these models;

*Specify model of mower when ordering

MODEL	PART NUMBER	PRICE
<p>FKDR Mechanical A small front linkage triangle, suitable for attaching the Kersten 1m range of NON-POWERED implements, such as Snow Plough and Wide-brush for artificial surfaces. Implements will be lifted/ lowered and angled Manually.</p>	FKDR Mech	495.00
<p>FKDR Hydraulic A small front linkage triangle, suitable for attaching the Kersten 1m range of POWERED implements, such as Sweeper, Weed-brush and Spreader. The Linkage provides Hydraulic lift/lower, hydraulic angling and hydraulic power to the implement. So no additional hydraulic kits are required from the tractor manufacturer.</p>	FKDR Hyd	1895.00

The John Deere X700 Series Ride on Lawnmowers can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front Hydraulics kit.

*Specify model of Mower when ordering

MODEL	PART NUMBER	PRICE
<p>X700 “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air. *Requires Hydraulic services to operate.</p>	<p>MT131 5670/5586</p>	<p>1495.00</p>
<p>X700 Front Hydraulics Kit An extension of the existing hydraulics, routing them to the front of the tractor and additional hydraulic couplings for powering implements and lifting the linkage. So no additional hydraulic kits are required from the tractor manufacturer. * To be used in conjunction with X700 “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.25m Hydraulic sweeper.</p>	<p>MT131 5682/5686</p>	<p>520.00</p>

The John Deere X950R Ride on Lawnmowers can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Mower when ordering

MODEL	PART NUMBER	PRICE
<p>X950R “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air and a kit for routing hydraulic services from rear of tractor. *Requires Hydraulic services to operate.</p>	<p>MT131 7743/7744</p>	<p>1995.00</p>
<p>X950R Front PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2500RPM Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer. * To be used in conjunction with X950R “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.3m sweeper.</p>	<p>MT131 7785/5586</p>	<p>695.00</p>

The John Deere 1026R Tractors can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>1026R “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air. <i>*Requires Hydraulic services to operate.</i></p>	<p>MT131 8140/5586</p>	<p>1750.00</p>
<p>1026R Front PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2100RPM Anti-Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with 1026R “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.3m sweeper.</i></p>	<p>MT131 8479</p>	<p>850.00</p>

The John Deere 2025R Tractors can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>2025R “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air <i>*Requires Hydraulic services to operate.</i></p>	<p>MT131 5831/5586</p>	<p>1795.00</p>
<p>2025R Front PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2000RPM Anti-Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with 2025R “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.3m sweeper.</i></p>	<p>MT 131 5885</p>	<p>995.00</p>

The Larger John Deere 20R Tractors can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>20R “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air. <i>*Requires Hydraulic services to operate.</i></p>	<p>MT131 5795/5586</p>	<p>1595.00</p>
<p>20R Front PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2000RPM Anti-Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with 20R “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.3m sweeper.</i></p>	<p>MT131 7338</p>	<p>995.00</p>

The John Deere 3036E Tractors can be fitted with a “CAT 1” Linkage. Attachments can be powered by a front Hydraulics kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>3036E “CAT 1” A-Frame A standard “CAT 1” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air. <i>*Requires Hydraulic services to operate.</i></p>	<p>MT131 7999/8001</p>	<p>2250.00</p>
<p>3036E Front Hydraulics Kit An extension of the existing hydraulics, routing them to the front of the tractor and additional hydraulic couplings for angling and powering implements and lifting the linkage using a Joystick So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with 3036E “CAT 1” A-Frame Linkage to allow fitment of powered implements such as the 1.3m sweeper.</i></p>	<p>MT131 7136</p>	<p>1695.00</p>

The John Deere 3020 Series Tractors can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>3020 “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air. <i>*Requires Hydraulic services to operate.</i></p>	<p>MT131 7225/7226</p>	<p>2350.00</p>
<p>3020 Front PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2000RPM Anti-Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with 3020 “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.5m sweeper.</i></p>	<p>MT131 7195</p>	<p>995.00</p>

The TYM T2 Series Tractors can be fitted with a “CAT 0” or “CAT 1” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>T2 “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air <i>*Requires Hydraulic services to operate.</i></p>	MT131 5858	1795.00
<p>T2 Front PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2000RPM Anti-Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with T2 “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.5m sweeper.</i></p>	MT131 5841	1295.00

The TYM T353 Series Tractors can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>T353 “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air *Requires Hydraulic services to operate.</p>	MT131 5843	2395.00
<p>T353 Front PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2000RPM Anti-Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer. * To be used in conjunction with T353 “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.5m sweeper.</p>	MT131 5844	1395.00

The TYM T433 Tractors can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>T4 “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air .</p> <p><i>*Requires Hydraulic services to operate.</i></p>	<p>MT131 7474/7481</p>	<p>2350.00</p>
<p>T4 CAT 1” A Frame Also Available with “CAT 1” Linkage.</p>	<p>MT131 7474/7482</p>	<p>2395.00</p>
<p>T4 Front PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2000RPM Anti-Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer.</p> <p><i>* To be used in conjunction with T4 “CAT 0” or “CAT 1” A-Frame Linkage to allow fitment of powered implements such as the 1.5m sweeper.</i></p>	<p>MT131 7475</p>	<p>1395.00</p>

The TYM TS25 Tractors can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit or front hydraulics.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>TS25 “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air and a joystick for controlling operations. <i>*Requires Hydraulic services to operate.</i></p>	<p>MT131 8427/8428/8199</p>	<p>2895.00</p>
<p>TS25 Front PTO Kit An auxiliary front PTO kit, which is powered from the Engine of the Tractor. 1000RPM Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with TS25 “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.3m sweeper.</i></p>	<p>MT131 8183</p>	<p>795.00</p>

The Iseki SXG216 Ride on Lawnmowers can be fitted with our own “FKDR” Linkage. Either with or without hydraulics.

The FKDR Linkage comes in two variations for this model;

*Specify model of Mower when ordering

MODEL	PART NUMBER	PRICE
<p>FKDR Mechanical A small front linkage triangle, suitable for attaching the Kersten 1m range of NON-POWERED implements, such as Snow Plough and Wide-brush for artificial surfaces. <i>Implements will be lifted/ lowered and angled Manually.</i></p>	FKDR Mech	495.00
<p>FKDR Hydraulic A small front linkage triangle, suitable for attaching the Kersten 1m range of POWERED implements, such as Sweeper, Weed-brush and Spreader. The Linkage provides Hydraulic lift/lower, hydraulic angling and hydraulic power to the implement. <i>An auxiliary hydraulic pump and auxiliary hydraulic tank are included in this kit; So no additional hydraulic kits are required from the tractor manufacturer.</i></p>	FKDR Hyd	1895.00

The Iseki TM32 Series Tractors can be fitted with a “CAT 0” or “CAT 1” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>TM32 “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air. <i>*Requires Hydraulic services to operate.</i></p>	FRHY IS TM CAT 0	2595.00
<p>TM32 “CAT 1” A-Frame Also available with standard CAT 1 front linkage triangle</p>	FRHY IS TM CAT 1	2695.00
<p>TM32 Front PTO Kit An auxiliary front PTO kit, which is powered from the Engine of the Tractor. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with TM “CAT 0” or TM “CAT 1” A-Frame Linkage to allow fitment of powered implements.</i></p>	FRZWR L	2500.00

The New Holland Boomer 20 Series Tractors can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>B20/25 “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air as well as couplings and a joystick for controlling implements. *Requires Hydraulic services to operate.</p>	<p>MT131 7626/8109</p>	<p>2850.00</p>
<p>B20/25 PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2000RPM Anti-Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer. * To be used in conjunction with B20/25 “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.3m sweeper.</p>	<p>MT131 7628/7629</p>	<p>995.00</p>

The New Holland Boomer 30 Series Tractors can be fitted with a “CAT 0” or “CAT 1” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>B30/35 “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air as well as couplings and a joystick for controlling implements. *Requires Hydraulic services to operate.</p>	<p>MT131 8119/8120/8121</p>	<p>3495.00</p>
<p>“CAT 1” A-Frame Also available with standard CAT 1 front linkage triangle.</p>	<p>MT131 8119/8120/8122</p>	<p>3595.00</p>
<p>B30/35 PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2000RPM Anti-Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer. * To be used in conjunction with B30/35 “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.3m sweeper.</p>	<p>MT131 8124</p>	<p>895.00</p>
<p>Front PTO Kit from the Engine - 2000RPM CW</p>	<p>MT131 8175</p>	<p>3295.00</p>

NEW HOLLAND

The New Holland Boomer 40 Series Tractors can be fitted with a “CAT 1” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>B40/45 “CAT 1” A-Frame A standard “CAT 1” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air as well as couplings and a joystick for controlling implements. <i>*Requires Hydraulic services to operate.</i></p>	<p>MT131 8325/8329/8328</p>	<p>3850.00</p>
<p>B40/45 PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2000RPM Anti-Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with B40/45 “CAT 1” A-Frame Linkage to allow fitment of powered implements such as the 1.3m sweeper.</i></p>	<p>MT131 8333</p>	<p>1150.00</p>
<p>Front PTO Kit from the Engine - 2000RPM CW</p>	<p>MT131 8339</p>	<p>3350.00</p>

The LS J20 Series Tractors can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>J20 “CAT 0” A-Frame</p> <p>A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air as well as couplings and a joystick for controlling implements</p> <p>*Requires Hydraulic services to operate.</p>	<p>MT131 7236/8108</p>	<p>2850.00</p>
<p>J20 PTO Kit</p> <p>An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2000RPM Anti-Clockwise rotation.</p> <p>So no additional hydraulic kits are required from the tractor manufacturer.</p> <p>* To be used in conjunction with J20 “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.3m sweeper.</p>	<p>MT131 7238</p>	<p>695.00</p>

The LS Rio 36 Series Tractors can be fitted with a “CAT 1” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>R 36 i “CAT 1” A-Frame</p> <p>A standard “CAT 1” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air as well as couplings and a joystick for controlling implements</p> <p><i>*Requires Hydraulic services to operate.</i></p>	<p>MT131 8362/8363/8365</p>	<p>3595.00</p>
<p>R 36 i PTO Kit</p> <p>An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2000RPM Anti-Clockwise rotation.</p> <p>So no additional hydraulic kits are required from the tractor manufacturer.</p> <p><i>* To be used in conjunction with R 36 i “CAT 1” A-Frame Linkage to allow fitment of powered implements such as the 1.5m sweeper.</i></p>	<p>MT131 8367</p>	<p>895.00</p>

The Kioti CK28 Series Tractors can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>CK28 “CAT 0” A-Frame AA standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air <i>*Requires Hydraulic services to operate.</i></p>	<p>MT131 8170/8171</p>	<p>2150.00</p>
<p>CK28 PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2000RPM Anti-Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with CK28 “CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.3m sweeper.</i></p>	<p>MT131 8178</p>	<p>995.00</p>

The Kioti CS26 Series Tractors can be fitted with a “CAT 0” Linkage. Attachments can be powered by a front PTO kit.

*Specify model of Tractor when ordering

MODEL	PART NUMBER	PRICE
<p>CS26 “CAT 0” A-Frame A standard “CAT 0” front linkage triangle; suitable for attaching a wide variety of attachments. The Linkage is supplied with a Hydraulic lift for raising implements in the air as well as couplings and a joystick for controlling implements <i>*Requires Hydraulic services to operate.</i></p>	<p>MT131 7508/1750</p>	<p>2795.00</p>
<p>CS26 PTO Kit An auxiliary front PTO kit, which is powered from the Mid PTO of the Tractor. 2000RPM Anti-Clockwise rotation. So no additional hydraulic kits are required from the tractor manufacturer. <i>* To be used in conjunction with CS26“CAT 0” A-Frame Linkage to allow fitment of powered implements such as the 1.5m sweeper.</i></p>	<p>MT131 7509</p>	<p>1150.00</p>
